**Subject: ECO-DIRECTIVE on Cigarette-Packs
eco-friendly cigarette pack with an integrated STUBS-BOX***
to protect the environment from cigarette-stubs and their more than 1000 pollutants.
Eco-Service for Smokers → Service for Smokers and the Environment

Dear Mr. Commissioner Vella,
I would like to invite you to start an initiative for an “eco-directive for cigarette packs“, which prescribes the tobacco industry to produce an eco-friendly cigarette pack with an integrated STUBS-BOX* to protect the environment from cigarette-stubs and their more than 1000 pollutants.

CIGARETTE-STUBS

- lying all over ...
- 58% of all throwaway-waste
- more than 1000 pollutants
- difficult to degrade
- billion-euro business for tobacco-industry

CIGARETTE-PACK with integrated STUBS-BOX*

- Ready to hand !!!
 - sustainable eco-protection
 - eco-protection without public money
- Service for Smokers and the Environment !!!

The TOBACCO-INDUSTRY is (not yet) interested.

CHALLENGE for ECO-POLICY

Obligation to the tobacco industry
to „eco-friendly cigarette-packs“

ECO-DIRECTIVE on Cigarette-Packs

§§§ integrated STUBS-BOX in each cigarette-pack §§§

ECO-STANDARD on cigarette-packs

- **legal basis EU** ←CLICK
- EU-Directive 91/156 Article 4
prohibits environmental pollution caused by waste
<http://eur-lex.europa.eu/legal-content/EN/ALL/?uri=CELEX:31991L0156>

- **Model / Example** = industrial environmental regulations
- CAT and Particulate Filters / Automotive Industry
→ CO2-Certificates / Heavy Industry
Without political pressure there would be neither CAT(catalytic converter) nor particulate filter etc. !

- With the **EU-PRESIDENCY** from 01.07.2018 **AUSTRIA** has the best prerequisites for an initiative to make the “Eco-Directive on Cigarette-Packs“ an **EU-DIRECTIVE**.

Dear **Mr. VELLA**,

I ask you to support our government in this direction.

With kind regards

Anton Leitner
